Mysore,
15/6/1916

134 T&P:1-3

May It please your hig hness,

I must submit yo your highness that things offi cial in Mysore are getting rotten and the officers are a string of scoundrels with considerable show and alot of wind in their heads.

Please see the enclosed cutting from the Madras Mailin which you will see that your officers do not kno know how to express themselves in English. I have underlined nonsense english of your Covernment. How can irriga tional facilities be given to lands submerged? This is Bengali or Madras Englishfull of nonsense and the same kind of stupid English occurred in the education report which said "sat up for" for "sat for2."

The governor of madras has written strongly against the cauvery dam and your highness government will be compelled to accept the modifications.

Mr Cobb was wondering why you have given a Government bungalow and government servants for Daly at Coty and suspected that you must have largely bribed through the zenanaas is usual in native courts

Mr. Bowring was telling me that they do not care to accept your invitation to the ga rden party and I have explained the reason already and he was telling me that mr Mirza is a stupid ass and an egregious windbag who has learnt considerable nonsense from that hideous Krumbiegel and ruined Mysore city by his destr

destroying policy.and the president of mysore municipali
ty was complaining that he has to do with a lot of bo
boys who surround you and know nothing and do not care t
to give you truth as it is and are wasting public money
like water .Though these things arre condemned in the
public press you highness does not care to read them &
between the lines and understand them as you have no
education and scholarship and do not care to take troub
trouble to see things with your own eyes andread papers
put before you .Hear always both sides and do the right
with out fear and be kind and good .Follow your father
steps and you will be a gem.Fear god.Love truth and doth
the right and learn all truth about the things in
the state from men whom you know to be truthful.inde
pendent and quite ferless.That was what your father wa
doing .There was under Col Hay one Srinivasaiyahis
personal clerk and Hay Could not Spre-spare his servic
to your father who wanted him for his service.But Hay a
always used to be with your father and as such allowed
Srinivasaiya to give him all important news ifrom
newspapers and all facts about the irregulaties
of the officers of state and Sir' Seshadri Iyer was
jealous of the man and offered to make him an asst
commissioner.Your father was paying him 100Rs a month
Hay R50and ater him Maintire R75.Whom have you got
about you?All who eat your salt but none honest and sin
none sincere.As I told you ,reform your office,man it
with intelligent men who know Mysore history and
constitutional law and pay more attention to the

wellbeing of your subjects than to useless shows on self aggrandisement ..You have got a regiment of officers on your staff ,who know nothing and another set to assist themand do nothing.You Dewan has already landed you in bankruptcy and your brother and Bannerji with Mirza quite a stuid dandy will complete.Your highness thinks hell of a lot of the treaty and Sir S.P.Sinha who came as aprivate visitor to the gold field lately agreed with me and condemned it as I did ~~if~~

Your highness must use your own judgment and be firm Your highness should not be led away by incorrect information and falsehoods.,which people about you are proficient in.It is said you do not care for honest good work I am going off to the Fields and wish your highness goodbye and many happy returns of your Birthday.

Always have men of the soil on your staff and do not be led bymarmallappa school vencatakrishnaiyya

Your faithful and loyal subject
